

# CYRUS HOT HEATING OIL TREATMENT

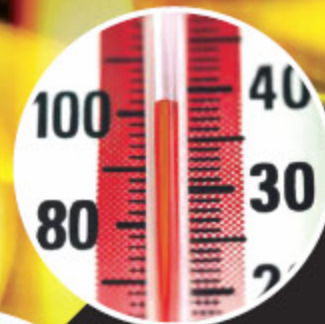

HIGHLY EFFECTIVE  
HEATING OIL TREATMENT  
THAT IMPROVES BOILER  
EFFICIENCY AND  
DELIVERS BETTER  
FUEL CONSUMPTION

Formulated for application to home heating oils, HOT is a highly effective cleaning agent, based on organic solvent, which safely removes soot and carbon from domestic oil fired burners and offers the following benefits:

## KEY PRODUCT FEATURES

- Improves heating system performance
- Extends the boiler life.
- Cleans nozzles, burners and fuel delivery systems
- Disperses moisture allowing water to burn as part of the fuel
- Reduces fuel consumption
- Eliminates soot and carbon deposits reducing harmful emissions.
- 500ml of HOT™ will treat 1000 litres of heating oil.
- Available in 500mls, 1 litre, 5 litres, 25 litres and 205 litres.
- MSDS available upon request.
